P R O F I L E

I am a dedicated Data Scientist passionate about leveraging data to extract insights and drive impact. With a strong background in statistics, programming, and ML, I excel at solving problems and transforming data into meaningful solutions.

E D U C A T I O N

SECONDARY EDUCATION

St. Paul's School 2015 - 2019

SENIOR SECONDARY EDUCATION

D.T.E.A. School 2019 - 2021

BACHELOR OF COMPUTER APPLICATIONS

Indira Gandhi National Open University 2023 - 2026

S K I L L S

- Statistics
- Probability
- ML
- MLOPs
- MySQL
- Python

P R O J E C T S

Satya: Sentiment Analyser

End-to-End MLOps & Production Engineering

Developed an end-to-end sentiment analysis API deployed on AWS. Engineered a robust MLOps pipeline featuring MLflow for experiment tracking, DVC for data versioning, and Optuna for hyperparameter tuning. Automated deployment using Docker, GitHub Actions (CI/CD), AWS Auto Scaling Groups, and CodeDeploy for zero-downtime rolling updates.

Uber Demand Prediction

Unsupervised Learning & Time Series Forecasting

Built a forecasting system for NYC Uber ride demand using Dask for large-scale data processing. Segmented the city dynamically using Mini-Batch KMeans clustering. Applied Time Series Analysis and regression models per zone—optimized via Optuna and evaluated using MAPE—to visualize high-density hotspots and improve driver allocation.

Spotify Hybrid Recommendation System

Recommendation Engines & Parallel Computing

Engineered a Weighted Hybrid Recommendation System combining Content-Based filtering (track metadata) and Item-Based Collaborative Filtering (user interactions) to boost engagement. Leveraged Dask parallel computing architectures to process massive interaction matrices and utilized Cosine Similarity to generate top-10 personalized tracks while mitigating cold-start issues.

C E R T I F I C A T E S A N D D E G R E E S

Data Science Mentorship Program (DSMP) 2.0 (2026)

Successfully completed a comprehensive, 2-year end-to-end Machine Learning and Data Science program by CampusX (Issued on 03 June 2026). Mastered advanced concepts including MLOps and industry best practices for building and deploying real-world AI solutions.

Bachelor of Computer Applications (BCA)

Graduated with a Bachelor's degree from Indira Gandhi National Open University (IGNOU), establishing a strong foundation in computer science, programming logic, and software development.
